

pro restore

recovery + firming concentrate

- Reduce downtime
- Improve skin recovery
- Amplify results

what is it

Designed to work with advanced skin services, this concentrate prepares the skin's barrier, restores it's condition, helps increase the appearance of firmness and brightness skin.

who's it for

All skin conditions undergoing advanced services such as microneedling, RF Microneedling, Fibroblast Skin Tightening, lasers and chemical peels.

One product with multiple benefits and a complex of active ingredients to work with micro-injury skin services.

1. strengthen

Panthenol (Pro-Vitamin B₅) improves hydration and helps to decrease skin damage

Mushroom Extract helps to soothe skin.

Hyaluronic Acid helps hydrate the skin.

2. restore

Omega-3 from Algae helps to calm the skin to address post-procedure redness and irritation.

Bacillus Ferment helps balance skin's microbiome.

Beta Glucan forms a protective film that prevents skin from dehydration and helps skin to restore back to normal.

3. amplify

Oligopeptide-1 Epidermal Growth Factor (plant derived) to improve skin's texture and resilience.

Phospholipids from Olive Stem Cells improve vitality for visibly firm and smooth skin and improves skin firmness.

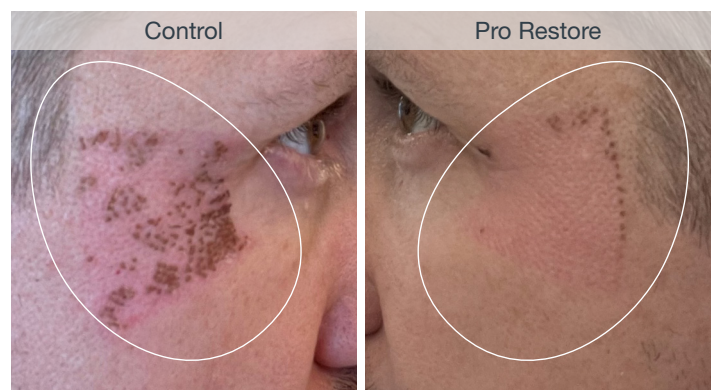

Niacinamide helps fade the appearance of dark spots for a more even skin tone.

Post-microneedling procedure: decrease of side effects

Immediately after microneedling at 1.25mm

Subject received one microneedling service all over face. On one side of the face, Pro Restore was applied prior to microneedling, was used during microneedling, and applied post microneedling. On the other side of the face, a control conventional Hyaluronic Acid serum for microneedling was used.

Post-fibroblast skin tightening procedure: reduced downtime

Day 5 post-procedure

Subject received one fibroblast skin tightening service on the crows' feet area. On one side, Pro Restore was applied from the second day post-procedure morning and evening. On the other side, nothing was used (conventional method).

Pro Restore – Box of 12 tubes: £96/€114
